• DISASTER RISK REDUCTION •
DRR PROJECT PORTAL
FOR ASIA AND THE PACIFIC

An initiative of the ISDR Asia Partnership on Disaster Reduction (IAP)

The DRR Project Portal (www. drrprojects.net) has been developed by the ISDR Asia Partnership on Disaster Reduction (IAP) with an objective to assist in setting coherent regional strategy and programming on disaster risk reduction (DRR) through improved information exchange. The online system developed would help in the following ways:

- **Governments** from countries in Asia and the Pacific would benefit by having greater clarity on types of support that may be accessed from regional level and thus receive coherent regional assistance

- **Organisations** implementing DRR projects in the region would be able to improve planning and programming of DRR interventions at the regional level and identify areas of cooperation

- **Donor agencies** would be able to identify priorities and thus effectively channel resources and efforts that can meet their policy and programmatic imperatives.

The DRR Project Portal provides information on the following:

- Who is doing what, and where, in DRR in the Asia and the Pacific region
- Information on initiatives undertaken in the past and what is currently ongoing, thus helping in identifying areas of cooperation
- What initiatives are planned for implementation in the region, thus helping to identify areas of synergy
- Identify broad trends in implementation of DRR initiatives; duration, scope, and size of projects
- Identify priorities that need more focus in specific locations, on particular themes and types of activities
- What strategies, frameworks and action plans have been adopted for reducing risk in the region
- Regional organisations, centres, networks and mechanisms involved in undertaking DRR interventions at a regional scale in Asia and the Pacific

About the DRR Project Portal

- An initiative of the ISDR Asia Partnership on Disaster Reduction (IAP)

- A portal of all stakeholders advancing the implementation of Hyogo Framework for Action (HFA) in Asia and the Pacific

- Developed by the IAP under the guidance of IAP Working Group on Regional Stocktaking and Mapping of DRR interventions in Asia and the Pacific

- Development of the portal has been supported by the Asian Development Bank, and Asian Disaster Preparedness Center as a technical agency has acted as the Executing Agency of the initiative on behalf of the IAP

Developed under the guidance of IAP Working Group on Regional stocktaking and mapping of DRR interventions and includes the following members:

ADB | Asian Disaster Reduction Center | International Federation of Red Cross and Red Crescent Societies | adpc | SOPAC | UNDP | United Nations ESCAP | ISDR | OCHA

In partnership with

ASEAN | SAARC | PACIFIC DISASTER NET | Pacific Disaster Risk Management Partnership Network

- Visit www.drrprojects.net

- Add information on current / proposed / completed DRR projects being implemented by your organisation

- Log in to edit project information and details

- If you want to find information on DRR projects use the following functions:

  - **PROJECT LIST** - Search projects by hazards, themes, countries, implementing organisations, donors etc: generate project list, export project information

  - **PROJECT ANALYSIS** - use this function to develop customised graphs and maps - get an idea on the typical trends on DRR implementation in the region and identify some broad gaps

  - **REGIONAL ORGANISATIONS** - know more about organisations, committees, forums, mechanisms, meetings and networks in Asia and the Pacific involved in implementation of DRR

  - **DRR FRAMEWORKS** - information on existing DRR strategies, frameworks and actions guiding the implementation of DRR in the region

  - **MY PAGE** - save your searches and graphs

For more information on how to use the project portal; visit www.drrprojects.net and click on USER MANUAL

DRR Project Portal values your:

CONTRIBUTION - Add your project information and encourage your partners to enter their respective projects on the system

OWNERSHIP - Link your organisation's website to the portal and get updates

FEEDBACK - On improving the system; its functions and usage

For any queries, support or feedback contact the administrator at: admin@drrprojects.net
