

# Presentation

## Coordination at provincial level on Action Plan for flood and Storm Control at Tien Giang province – Viet Nam

Luang Prabang, 24 February 2011

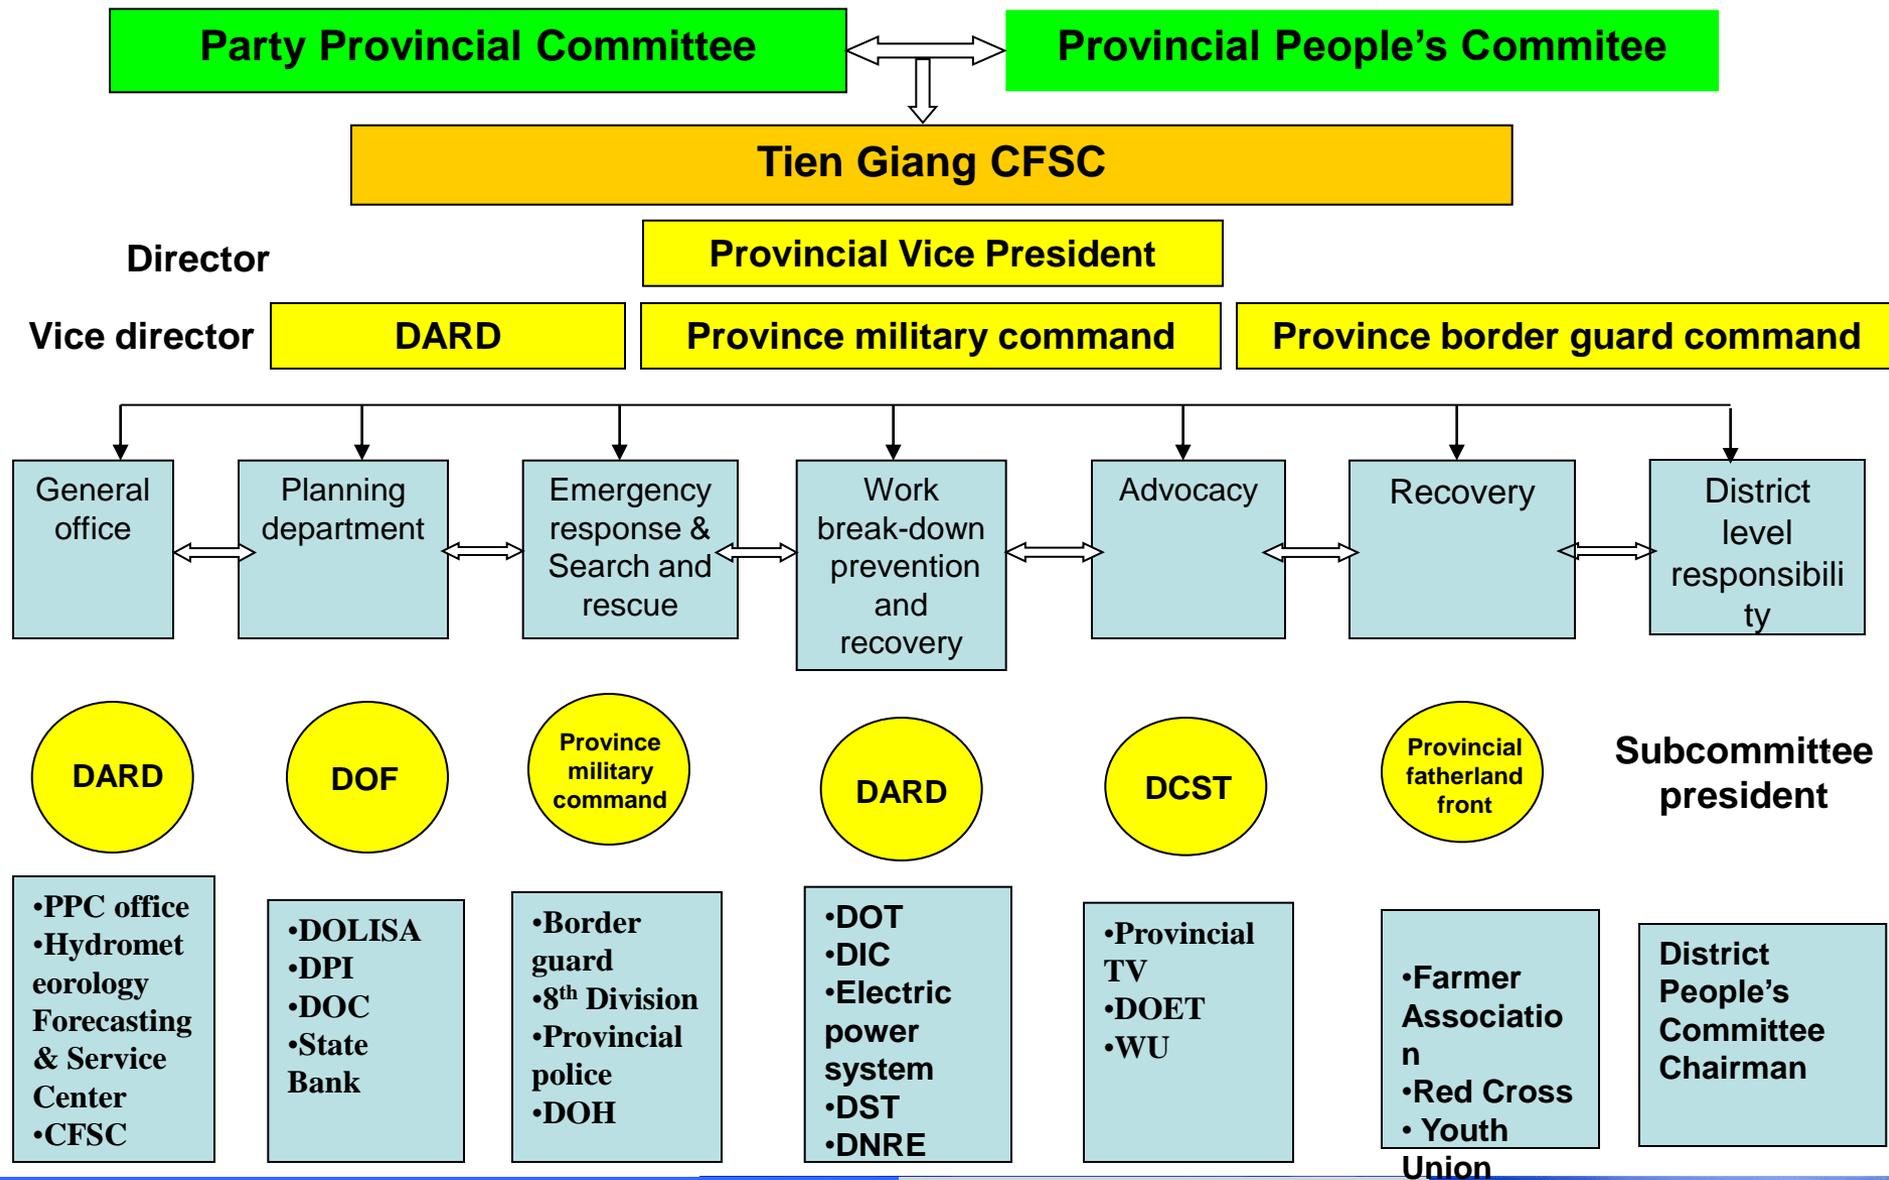

# I. Geographic location and population

- Located in Mekong delta, 70km South of HCM city and 90km North of Can Tho city, Tien Giang lies in the Southern main economic area.
- Lies 120km along the north side of Tien river (a branch of Mekong river).
- Area: 481,77 km<sup>2</sup>
  - o 6% of Mekong Delta
  - o 0,7% of Vietnam.
- Population: 1,67 million (density: 672,9 people/km<sup>2</sup>)
  - o 9,8% of Mekong Delta
  - o 1,9% of Vietnam.

## II. Mechanism of Tien Giang Center for Flood and Storm Control (CFSC)

# III. Provincial Action Plan for Flood and Storm Control process

- **Planning process:**

# Stakeholders' Participation :

## Mobilizing the participation of communities

## Cooperation with Red Cross, Women's Union

+ Members of CFSC

+ Are responsible to cooperate to implement flood control plan

## Cooperation with INGOs (Oxfam)

+ Implementing project activities

+ Advising on technical information and activities implementation

+ Sharing experiences on coordinating, sharing information

## Contribution from cooperating with INGOs (Oxfam)

- ✓ Importance of communities' participation. (Survey, design, plan and implement)
- ✓ Meet people's needs (men and women)
- ✓ Promoting people's ownership roles
- ✓ Mobilizing women's participation

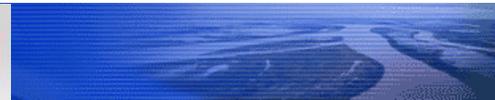

Commissioned by  
 Federal Ministry  
 for Economic Cooperation  
 and Development

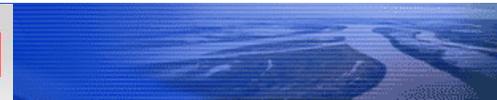

## IV. Strategic orientation of building flood control plan

- Building separate provincial action plan for flood and storm control (with participation of CFSC members).
- The development of the action plan should be integrated based on the following 4 following strategy plans:
  - + Socio-economic Development Plan of Tien Giang until 2020.
  - + National strategy on disaster management until 2020 was approved by GoV in 2007.
  - + National target programme on climate change adaptation was approved by GoV in 2008.
  - + National programme on raising communities' awareness and CBDRM until 2020 was approved by GoV in 2009.

# V. Achievement through cooperation:

- **Capacity building for communes:**
- **Capacity building for CFSC:**
  - + Participating in trainings
  - + Learning, sharing experience through working and attending workshop
  - + Assisting on training, knowledge to build flood and storm control plan
- **Management:**
  - + Ensure local ownership with technical advising from consultants and project officers
  - + Building plan is updated regularly
- **Oxfam's project impacts:**
  - + Raising communities' awareness
  - + Building capacity of CFSC officials
  - + Providing early warning equipment, small-scale construction
  - + Building trainers network at all levels, especially commune levels

## Achievement through cooperation

# V. Achievement through cooperation (cont'd)

- **Roles of men and women**

- + Providing knowledge on gender equality
- + Giving chance for women to participate in activities, decision-making process and their rights to be heard
- + Conducting gender analysis, natural elements, resources, capacity and vulnerabilities analysis under gender perspectives

- **The vulnerable groups got more attention and people's attention to communities was improved**

## VI. Limitations

- People's awareness was raised among project communes only due to small scale of the project.
- Trainings were almost at commune level and need to be scaled up to district and provincial levels
- Provincial, district and commune focal points still processed work slowly due to their work at authorities.
- Changing officials according to Organization's requirement also affected project quality

## VII. Recommendations

- Continuing to implement projects on disaster management in the province due to its effective impact.
- Organizing workshop, forum at provincial, national and regional levels for provinces to share information, knowledge and experiences on disaster management.

THANK YOU FOR YOUR ATTENTION!

WISH THE WORKSHOP SUCCESSFULLY!
